Breast-feeding and colonization with oral streptococci in healthy infants. Colonization of the human oral cavity with *Streptococcus mitis* and *Streptococcus oralis* is an important factor in the development of dental caries. To investigate the relationship between breast-feeding and colonization with oral streptococci. Women with infants who were 6, 12, 18 and 24 months old (N = 867) were interviewed using a questionnaire. The participants also had oral swabs taken at the age of 6 months. None of the women had received antibiotics within the last 6 weeks. The number of *S. mitis* and *S. oralis* was counted. Logistic regression analysis was used to analyze the data.

[Effect of oral administration of high-dose (1.2 times) corticosteroids on survival of experimental rabbits with pneumococcal endocarditis]. The authors studied the effect of oral administration of high-dose (1.2 times) corticosteroids on survival of experimental rabbits with pneumococcal endocarditis. Intravenous administration of corticosteroids in a dose of 80 mg/kg of cortisone acetate in 24 hours to rabbits with endocarditis significantly decreased the mortality rate within the first 24 hours after treatment by 5.5 times. The adverse effect of cortisone acetate is characterized by the stimulation of the lymphoid system and other systems, which leads to the development of septic complications. High-dose cortisone acetate administered orally was shown to be less toxic. The side effects of oral administration of cortisone acetate were manifested by hyperglycemia, systemic hypotension, hyperkalemia, hypophosphoremia, and hypocalcemia. In cases of sepsis, administration of corticosteroids should be combined with administration of pro-corticosteroids, which help to maintain the blood pressure, to promote the elimination of

System Requirements:

This is a complete version of the game. It is compatible with Windows 7, 8, and 10. It will work with any graphics card. It will run under Windows 7 and 8 but at full resolution only under Windows 10. We recommend Windows 10 or later. It will run on an Intel Core 2 Duo 1.6GHz, 3GB RAM, 500GB hard drive (it should run on any modern PC or even laptop). The game is designed to run on as low a spec as possible. It is not a big game, and should run comfortably at 30fps.
